

Dear Parent/Carer,

Your child has completed Level 2 Bikeability Scotland and his/her performance is recorded in this certificate. It is important that both you and your child recognise that the instruction took place under close supervision on relatively quiet roads. Therefore, this certificate should not be seen as a licence to cycle unsupervised on busy roads.

Learning safe cycling skills is an ongoing process, so it is important for you to make sure that your child keeps using the skills learned during the training. Some notes may have been made on this certificate about certain aspects of cycling that your child needs to practise more. It is very important that your child is given as much help as possible to continue practising the skills taught on the course, especially those commented on.

The Cyclist's Guide has more information on the colour coding used within the table below.

Assessment of performance

-  **Secure** – Well done! You have shown a high level of understanding of this learning outcome. Keep up this standard, keep safe, and keep cycling!
-  **Consolidating** – You have progressed well and met this learning outcome with some mistakes. With adult help, you should read the comments and try to improve on the areas noted.
-  **Developing** – You have shown some progress but have not yet achieved this learning outcome. With adult help, you need further training in the areas noted, paying attention to the comments.

Cycling Scotland

Congratulations

LEVEL 2

has completed

Bikeability Scotland Level 2
